People came from all over Greece and beyond to have their questions about the future answered by the Pythia, the priestess of Apollo.

Mycenaean culture, which dominated Bronze Age Greece, is the source of ancient epics and legends such as the labors of Hercules, the Trojan war, and Agamemnon's tragic life and death.

Next, tour the ruins of ancient Corinth. Corinth was first inhabited between 5000 BC and 3000 BC, but was destroyed in 146 BC by the Romans. Before its destruction it was a thriving city. During its peak, Corinth was a leading maritime power. Its geographical location allowed it access to the Peloponnesus and pretty much the entire country of Greece and other Mediterranean countries. Most of Corinth's wealth was accumulated through trade. This wealth led to influence and this influence caused Corinthian culture to spread throughout the entire ancient world (Methuen). Pay a brief visit to the ancient port of Kecherai. Return to Athens.

Day cruise to **Hydra**, **Poros** and **Aegina**, the beautiful islands of the Saronic Gulf. Three islands

overflowed with history, cosmopolitan aura, religious experience along with sounds, colors and images that you want to keep with you forever.

Hydra, one of the most beautiful Greek islands near Athens, so small in size but so big in history. A car free island. Its traditional architectural idiom remains untouched by modern interventions. The picturesque, paved streets, wandered by the donkeys -the traditional means of transport- are one of the most characteristic images of the island. Walking to the streets, you will discover imposing mansions that served as fortresses against pirate attacks and during the 1821's liberation struggle.

Poros is easily identified by the historical clock tower on top of the hill. Built in 1927 is the main landmark and the city's pride. The island is surrounded by thousands of pine trees extending from the rugged coasts to the sandy beaches, it's been characterized "the island of romance."

Aegina is the largest island of the Saronic Gulf, named after the nymph Aegina, who fell in love with Zeus, the father of all Gods. In 1826 Aegina became the first capital of the newly founded Greek state. Aegina is well known for its culture, its antiquities, its religious sites as well as its world known pistachios. The temple of Aphaia is considered as one of the wonders of the ancient era architecture. According to the myth, the nymph Aphaia vanished at the same spot where the temple is located.

These lovely towns are chock full of restaurants, cafes and shops. The third section of Santorini features Megalochori and Emborio which are agricultural communities that have only recently embraced the tourist trade of the island.

Santorini is the essence of a Greek island, where sea meets weather-beaten rock and colors are bold and elemental. Blue-domed chapels stand on hilltops; houses are simple white cubes, sunsets flamboyant orange. The half-moon island, with its rearing cliffs and dramatic outlooks, is all that remains of a huge volcanic explosion. Inland, fertile soils provide a softer landscape of silvery olive trees, fields of tomatoes and neatly pegged vineyards that produce sweet amber-colored wine.
